Date: 22 December 2023

Dear Jon Parsons

**The Waste Electrical and Electronic Equipment Regulations 2013 (as amended)
Notification of grant of approval of an authorised treatment facility with the use of an
agreed protocol**

We have considered your application for approval as an authorised treatment facility (AATF) under the Waste Electrical and Electronic Equipment Regulations 2013 (as amended) with the use of an agreed protocol and hereby grant approval to **Environcom England Limited** to operate as an AATF at the following site only:

Site name and address	Approval number
Environcom England Limited Spittlegate Level Grantham Lincolnshire NG31 7UH	WEE/NE0006ZT/ATF

Your approval is subject to the conditions of approval specified in Part 2 of Schedule 11 to the Regulations at the approved site listed above. A copy of these conditions is attached.

Your approval is valid from 01 January 2024 and ends on 31 December 2024, unless it is otherwise suspended or cancelled. The approval applies only to the named operator for the specified approved site. You must notify us immediately, in writing, of any changes to the details submitted with your application.

If you wish to apply any site specific protocols to another site, you must submit an additional protocol application, providing evidence of sampling, which will be assessed by the Environment Agency to determine if the protocol can be applied to the additional site.

The acknowledgment of the protocol is subject to the conditions listed in Annex 1.

This approval applies only to the legal entity named in this letter. If this changes then your approval will be deemed to be cancelled and you must make a new application for approval. If you cease to be an authorised treatment facility your approval will also be deemed to be cancelled.

The approval allows you to issue evidence notes for waste electrical and electronic equipment (WEEE) which you received at this site and which is subsequently re-used, treated, recovered or recycled.

This approval does not replace any other environmental authorisation(s) that you may have for the site. You must continue to comply with these and other relevant legislation. This includes complying with the legal requirements for persistent organic pollutants and hazardous waste. More information on this can be found by contacting our Chemicals Compliance team at POPsandWEEE@environment-agency.gov.uk.

AATFs wishing to be approved for the next compliance period (01 January – 31 December 2025) and to have their approval run continuously, should apply to the Environment Agency using the relevant application forms before 30 September 2024.

If you have any specific queries about your approval or general queries regarding the WEEE Regulations please contact 03708 506 506 and ask to speak to a member of the Producer Responsibility Regulatory Services (PRRS) team.

Yours sincerely

A handwritten signature in black ink that reads "Samantha Hall".

**Annex 1 -
A. Site Specific Protocol**

The table below shows details of the agreed protocol for site, **Environcom England Ltd**, Spittlegate Level, Grantham, Lincolnshire, NG31 7UH. Your protocol is valid for 2 compliance years, please note its expiry date below. You must not use the protocol for WEEE outside of the agreed limitations.

Category	Subtype	Average weight (kg)	Limitation	Expiry date
1. Large household appliances	Washing machines and washer dryers	67.8	For mixed loads only (where display, cooling and LDA is mixed on one vehicle)	31 December 2025
	Large LDA (dishwashers, tumble dryers, & cookers)	43.5	For mixed loads only (where display, cooling and LDA is mixed on one vehicle)	31 December 2025
11. Display screens	Small CRT (≤20 inch)	11.6	For mixed loads only (where display, cooling and LDA is mixed on one vehicle)	31 December 2025
	Large CRT (>20 inch)	39.2	For mixed loads only (where display, cooling and LDA is mixed on one vehicle)	31 December 2025
	Very small flat screens (≤26 inch)	5.07	For mixed loads only (where display, cooling and LDA is mixed on one vehicle)	31 December 2025
	Small flat screens (>26 - ≤32 inch)	9.26	For mixed loads only (where display, cooling and LDA is mixed on one vehicle)	31 December 2025
	Medium flat screens (>32 - ≤42 inch)	16.11	For mixed loads only (where display, cooling and LDA is mixed on one vehicle)	31 December 2025

	Large flat screens (>42 - ≤49 inch)	12.71	For mixed loads only (where display, cooling and LDA is mixed on one vehicle)	31 December 2025
	Very Large flat screens (>49 inch)	17.14	For mixed loads only (where display, cooling and LDA is mixed on one vehicle)	31 December 2025
12. Cooling appliances containing refrigerants	Under counter fridge/freezer (≤85cm in height)	31.9	For mixed loads only (where display, cooling and LDA is mixed on one vehicle)	31 December 2025
	Large free standing fridge/freezer (>85cm in height)	59.3	For mixed loads only (where display, cooling and LDA is mixed on one vehicle)	31 December 2025
	American style fridge/freezer (double door)	111.6	For mixed loads only (where display, cooling and LDA is mixed on one vehicle)	31 December 2025
	Chest freezer (<100cm in height, varying widths)	58.5	For mixed loads only (where display, cooling and LDA is mixed on one vehicle)	31 December 2025

Sampling

You should submit a protocol proposal 6 months prior to the expiry of this protocol if you wish to continue using an SSP.

If there are changes to the type/source of WEEE you receive, and it is likely to affect the percentages/weights agreed in your SSP, then please contact us. You may need to conduct more sampling to ensure your SSP figures remain valid.

Your use of this protocol will be inspected during site audits, to ensure that it is being applied appropriately and the data is being recorded is auditable and accurate.

Please note, the Environment Agency may ask you to increase the level of sampling if there are concerns with the protocol or any data discrepancies. The Environment Agency reserve the right

creating a better place
for people and wildlife

to withdraw our acknowledgement of the protocol if information indicates it is providing inaccurate reporting of WEEE.
